HBO BIG LOVE FILM SETS

About The Project

CLIENT:

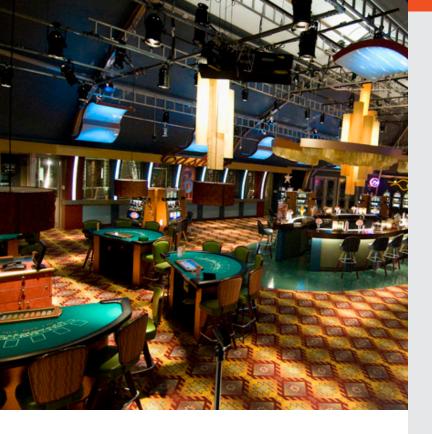

HBO Big Love - Santa Clarita, California

Big Love is a long running HBO TV series about the polygamist Bill Paxton and his 3 wives and extensive family. Through the series Bill started dialogue with a local Indian tribe in hopes of starting a gaming operation. The production manager and location manager investigated what a typical tribal gaming facility looked like in the United States and toured a number of facilities. At the Soboba Casino, in California, the HBO team noticed that the casino was housed in a Sprung structure. As Soboba is an operating casino in Southern California, filming inside the casino was not an option. After completing research on Sprung, with their extensive gaming experience, HBO purchased two Sprung structures which became the actual set for the last two years of the series. The structures were erected inside a sound stage in Santa Clarita. Many of the interior design elements were emulated from existing Sprung casinos. The large clear span interior was ideal for filming and the ability of the Sprung frame work to carry heavy loads made hanging the lighting grids and cameras a breeze. Sprung was the optimum solution for this high profile HBO series.

Why Sprung for the Film Industry

We understand the film industry is unique to other industries, and likewise faces its own unique set of challenges, from labor shortages to supply chain issues and tightening margins. When aligning with Sprung, our team of professionals can help you get back to your core business. We provide:

- Rapid construction
- Design flexibility
- STC 48 rated wall system (Sound Transmission Class)
- Performance & durability
- Lower overall costs

With Sprung Structures, your new project can be up and running faster and more cost-effectively, designed with your specific vision and unique needs in mind.

The Sprung Difference

SPRUNG CARES

Our teams work in some of the most vulnerable environments and harshest conditions. At Sprung, we are deeply committed to positively impacting the communities we serve, and applying our innovative ideas to help solve complex problems.

UNMATCHED REPUTATION

Invest in the world's most reliable, versatile and technically advanced structures: Sprung has erected 12,000 structures in more than 100 countries.

ENGINEERED FOR EXTREME CLIMATES

Sprung structures are engineered to withstand extreme weather conditions.

IMMEDIATE DELIVERY FROM INVENTORY

Complete projects in a much shorter time frame than conventional construction.

CUSTOMIZABLE

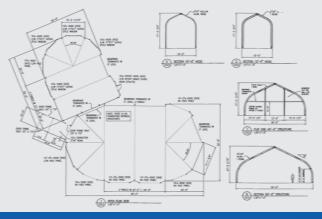

Customizations include performance insulation packages for superior indoor climate control, peak integrated daylight panels, doors and entryways for every application, and countless accessories.

LIMITED FOUNDATION REQUIREMENTS

Save on foundation costs where appropriate soil conditions exist. Concrete foundations are not required for Sprung structures up to 160 ft. in width, saving time and cost for installation.

• COST-EFFECTIVE, COMPACT SHIPPING

Enjoy the convenience and cost savings of shipping up to 15,000 sq. ft. in a single, standard ISO container or flat bed truck.

About Sprung

Sprung meets rapid-response building needs in a wide range of leading businesses and organizations including the global armed forces, the natural resources industry, manufacturing, commercial gaming, education, disaster recovery, healthcare, and aviation, as well as sports and recreation. Sprung has designed and patented tensioned membrane technology that outperforms other building alternatives and offers a faster, better build. Year after year, we continue to engineer the most innovative, versatile and reliable building solutions.

Sprung has designed and patented tensioned membrane technology that outperforms other building alternatives and offers a faster, better build.

You can trust us to design and manufacture your facility with speed and quality that will exceed your expectations. Our clients demand it; our history proves it. In business since 1887, Sprung has completed over 12,000 structures in more than 100 countries.
