Project Overview:

Client: Sprung Instant Structures Ltd. - Canadian Offices, Manufacturing and Distribution

Challenge: Having outgrown several office and manufacturing facilities in Calgary, Sprung wanted to consolidate into one facility and create a showcase.

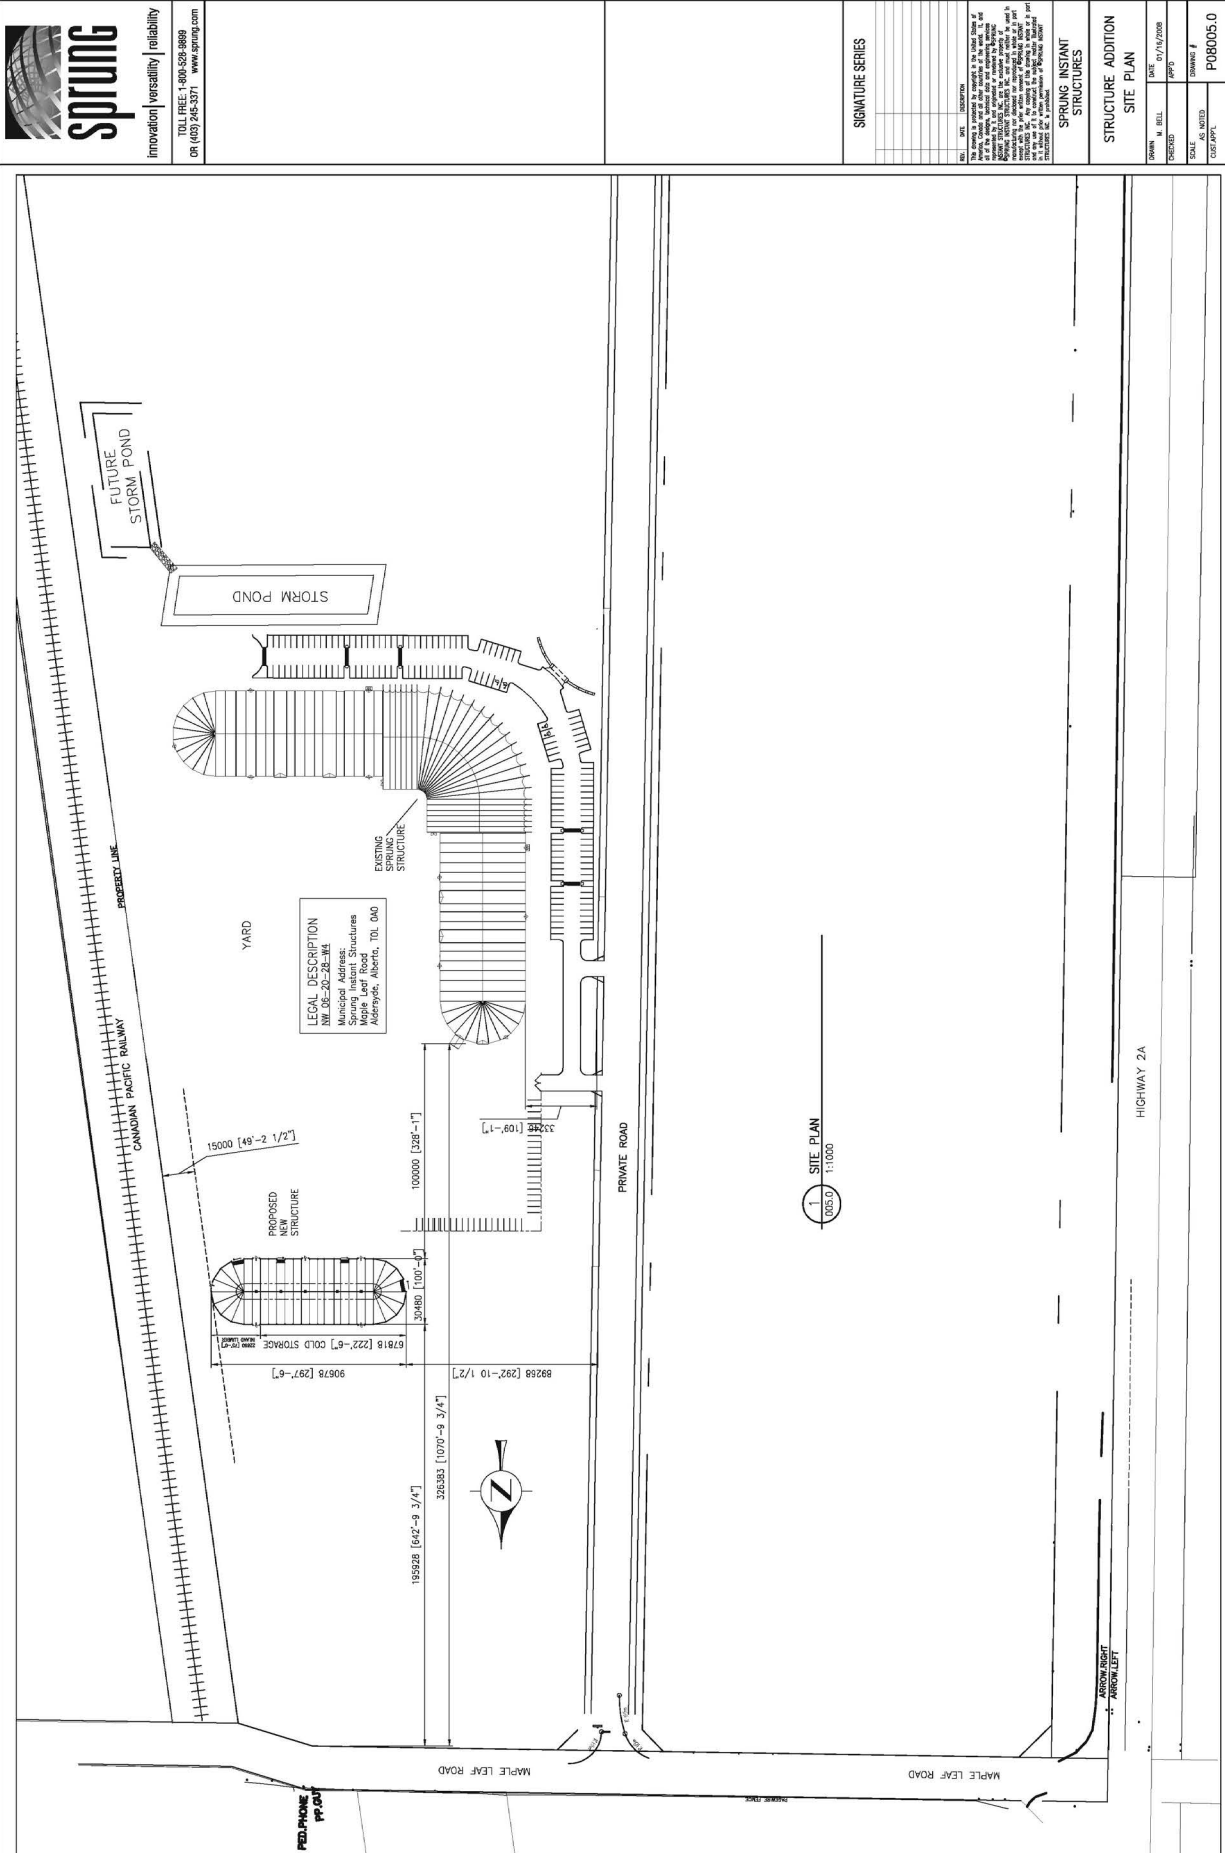

Solution: **150,000 square foot (13,935 m²) fully insulated** Sprung Structure equipped with two manufacturing wings and office space. R30 fiberglass insulation, Dupont Tedlar architectural membrane with special translucent panels in the peak which provides natural daylight.

Results: Completed in 2007, this facility is located on 100 acres just south of Calgary Alberta. The center core of the facility includes a 30' high glazing wall that provides breathtaking views of the rocky mountains, a restaurant, gymnasium, indoor gardens, lounge, athletic center, and corporate offices. The two wings of the structure house state-of-the-art manufacturing facilities for aluminum and membrane fabrication.

This Sprung Structure Features:

- 30' high glazing wall overlooking mountain views
- Natural daylight provided by daylight panels
- Restaurant
- Indoor gardens
- Offices
- Gymnasium
- Lounge
- History room
- Outdoor walking paths

Top 5 Reasons to Choose Sprung:

- 1. Immediate Delivery from Inventory** – Complete projects in a much shorter time-frame than conventional construction.
- 2. Sunlight and a Bright, Welcoming Space** – Daylight panels and glazing walls allow more natural light to penetrate and brighten up interior space.
- 3. Superior Performing Insulation System** – Achieve exceptional performance as well as lower operating and energy costs with Sprung's airtight building envelope and fully lofted fiberglass insulation system.
- 4. Lower Overall Project Costs** – Dramatically reduce project timelines and costs, decrease operating and energy expenses.
- 5. Lease with Option to Purchase** – Increase your cash flow savings with Sprung's convenient in-house leasing program.

Sprung Structures

For four generations, Sprung has designed and patented tensioned membrane technology. Inventory-ready building solutions that consistently outperform other building alternatives.

- Sprung structures can be dismantled, reconfigured, re-erected, or relocated for almost any number of applications and virtually every market sector in the world.
- Beyond providing all-weather shelter for equipment and inventory, Sprung structures provide bright, spacious high performance, energy efficient environments.
- To date, Sprung has completed over 12,000 structures in more than 100 countries worldwide.
